POWERING YOUR BUSINESS

**Whenever you need it
Wherever you need it**

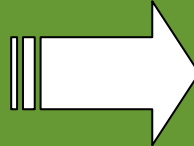

WHY CHOOSE ECO TECHNOLOGIES INTERNATIONAL?

- With factories in both Northern Ireland and China, we are well equipped to design, manufacture, deliver, install and commission your power requirements worldwide.
- We do this on time, every time.
- We use a range of engines and alternators to meet your specific requirements.
- We pride ourselves on the quality of our work. Breakdowns are not acceptable and we endeavour to get it right every time.
- Unfortunately breakdowns can occur. We ensure that our after-sales service team are experienced, accessible and ready for all eventualities.
- After-sales service is an integral part of our business. Whether you require parts, routine maintenance, or 24hr breakdown cover, we will tailor our solution to meet your needs.
- Our staff are the best in the business. With a wide range of experience and a professional approach, we look to develop long-term positive relationships with our customers.

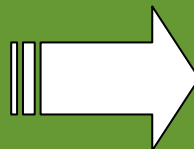

Striving to be the customer's preferred supplier through consistently delivering a product and service that exceeds expectations.

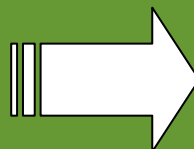

Design and manufacture of Diesel and Gas generators from 5KVA to multi-Megawatt fully synchronized packages.

Certified to German TUV, Canadian CSA, EPA and ISO9001 you can be assured of a quality product at the best possible price.

We design and manufacture switchgear to meet your specific needs.

We can also supply bulk fuel tanks and a range of additional products to enhance your power project.

We design and manufacture generator containers tailored to your requirements.

Built for strength, with a high quality finish.

Striving to be the customer's preferred supplier through consistently delivering a product and service that exceeds expectations.

ECO Technologies International recognises that our customers are looking for a quality product, from brands they trust, at a fair price.

To meet this demand, we have increased our manufacturing facilities to incorporate a factory in China. Our head office in Northern Ireland, control all design and quality checks to ensure we supply the same product at a better price. We only use new Cummins, Perkins and Deutz engines and Stamford, Leroy Somer and Mecc Alte alternators (all UK spec).

We work hard to give you a better product at a better price, so get in touch to request a quote or any additional information.
